About Barber-Nichols Inc.

Barber-Nichols Inc. (BNI) is a leading provider of custom turbomachinery for the Defense, Aerospace, Cryogenics and Energy industries. This is a unique place. Our company is made up of people that are at the top of their game. And we are working with customers who are at the top of their game. Together, we help our customers revolutionize their markets and build amazing relationships with them in the process.

BNI offers a competitive salary, a stable work environment, and an outstanding benefits package including low-cost medical, dental, vision and accident insurance along with employer paid parental leave, military leave, life insurance, short-term/long-term disability, tuition reimbursement, 401K matching & profit sharing, company events, paid time off and more. If you're seeking to work with an amazing team in a "get-it-done" atmosphere that supports your development, and recognizes your achievements, BNI is the place for you.

Position Summary: The Program & Strategy Manager is responsible for leading business-critical Navy and DoD projects by overseeing compliance to the contractual requirements and guiding them through their lifecycle. This includes management of the cost, schedule, technical performance and customer management. They lead their programs through detailed engineering, manufacturing, procurement, assembly and test phases as applicable to the scope of each program.

Duties and Responsibilities:

- Deliver projects on time, on budget, with performance and quality specified by customer contractual requirements.
- Execute contract negotiations with government and prime contractors (cost plus and fixed price contract types) to ensure optimized terms & conditions, pricing, and delivery & milestone dates.
- Maintains contract scope control to ensure program profitability per contractual agreement.
- Forecasts and communicates future needs (resources, processes, and systems) for active/future projects.

Qualifications:

To qualify for this position, an individual must possess the knowledge, training, experience and abilities required.

Education and Training

- Bachelor's Degree in Engineering, Project Management, Business/Contract Administration or equivalent combination of education and experience.

Experience:

- Six years of professional experience in project or program management. Ten years of combined experience in project management, supply chain management, engineering, and/or manufacturing.
- Demonstrable experience managing Government Contracts and associated flowdowns.

Other:

- Must be willing to work overtime as required
- Travel up to 20% of working time.

Desired Qualifications:

- Program Management Professional certification desired
- Knowledge of FAR/DFARS, ITAR, and/or related regulations desired

ITAR Requirements

To conform to U.S. Government commercial space technology export regulations, including the International Traffic in Arms Regulations (ITAR), 8 U.S.C. § 1324b(a)(3), applicants for employment at Barber-Nichols must be a U.S. citizen or national, lawfully admitted for permanent residence into the U.S. (i.e. current green card holder), or lawfully admitted as a refugee or granted asylum under 8 U.S.C. § 1157-1158. Security clearance is required for this position.

How to Apply:
