

Job Title: Project Manager IV

Requisition ID 22300 - Posted 04/16/2021 - Integrated Solutions & Services (1001) - ISS (3014) - US_Co Springs 725 Wooten_CO (CO015) - Project Management

Evoqua Water Technologies LLC, the worldwide leader in water treatment products and services, is looking for a **Project Manager** to be located in **Colorado Springs, CO**

Duties & Responsibilities:

Project management responsibilities include the coordination and completion of projects on time within budget and within scope. Oversee all aspects of projects. Set deadlines, assign responsibilities and monitor and summarize progress of project. Prepare reports for upper management regarding status of project.

The Project Manager will work directly with clients to ensure deliverables fall within the applicable scope and budget. He or she will coordinate with other departments to ensure all aspects of each project are compatible with the contractual scope of work sold.

- Must be able to manage multiple equipment design projects with values in the range of \$200,000 to \$10,000,000
- Set and maintain project schedule(s) while interacting with internal customers (Engineering, Design, Purchasing, Planning, Validation, Manufacturing, Quality Assurance, and Field Service), as well as the end user (Customer).
- Function as primary, external customer contact on assigned projects, with focus on exemplary customer service.
- Monitor and maintain a project budget for each project managed including labor and materials, such that forecasted margins are maintained or improved upon.
- Meets financial objectives by forecasting requirements, scheduling expenditures, analyzing project variances, initiating corrective actions.
- Provide weekly project status updates via MS Project schedule, relative to task and milestone completion, risk/opportunity potential
- Manage the procurement of equipment and material necessary to execute the project.
- Must be able to lead the coordination of internal and external resources for project execution.
- Manage projects per agreed to contract terms & conditions to ensure adherence by all parties, both internal and external, including issuance of Non-Conformance Costs, change orders, and customer invoices.
- Other duties as assigned

Project Management Certification will be encouraged within twelve months of hire date (PMP Certification).

Education Required: Prefer degreed Mechanical, Electrical, Civil, or Chemical Engineer. Commensurate experience in the water purification industry is acceptable

Knowledge, Skills, & Required Experience:

- 8+ years Project Management experience in the water purification or manufacturing industries preferred.
- Demonstrated experience in Project Management processes
- Ability to identify and resolve project problems
- Familiarity with SAP Business Operating System is preferred.
- Proficient in Microsoft Office and MS Project Software, SharePoint
- Excellent verbal, written, and interpersonal skills.
- Travel <10% primarily within the continental United States
